2019 Schedule for Commercial/Non-Commercial Pesticide Application Training to Prepare for Exams

(For Individuals Who Have Never Taken the Exams)

The training covers the following categories: Agricultural Plants (Ground and Aerial), Right-of-Way, Demonstration & Research, Forest Pest Control, Wood Treatment, Aquatic Pest Control, Public Health, Agricultural Animals, and Regulatory. These meetings also qualify as training for Commercial Applicator Technicians (CAT), although CAT applicators do not have to take exams.

These meetings are not for recertification of applicators that already have, or have had, a pesticide license.

These training sessions are intended to help individuals prepare for the exams required in order to obtain a pesticide license. These meetings are intended to train custom applicators, aerial applicators, University and Extension personnel (including graduate students), chemical company employees, employees of state and federal government agencies, etc.

Persons planning to attend these meetings must either register online (link below), or fill out the preregistration form (link below) and FAX it to Ples Spradley at 501-671-2252, or e-mail the information to tmaize@uaex.edu. **There will be a fifty dollar ($50.00) charge for each person attending a training session. You can pay online (preferred) or by check on the day of the training at the training location. Checks must be made out to the "Cooperative Extension Service".**

We highly recommend that you get a study kit prior to the training by calling Ms. Terilyn Maize at 501-671-2232. The study kits are $15 and can be ordered over the phone with a credit card.
