## I. INTRODUCTION

The State of Arkansas presents its Annual Report of the Clean Water State Revolving Loan Fund Program (RLF) for the state fiscal year (SFY) ended June 30, 2013. The RLF consists of project development and the various accounts associated with lending (the Fund), and the Fees and Administrative Account, which is held outside the Fund. It is administered by the Water Resources Development Division (Division) of the Arkansas Natural Resources Commission (ANRC). Arkansas Development Finance Authority (ADFA) provides accounting and other RLF related financial assistance to ANRC, and the U. S. Environmental Protection Agency (EPA) provides RLF oversight. This report describes the goals and objectives as related in the Intended Use Plans (IUPs) and the RLF accomplishments of the State during the year.

## II. EXECUTIVE SUMMARY

The 2013 Intended Use Plan and Amendment for SFY 2013 was submitted to EPA in June 2012. In April 2013, the Intended Use Plan was revised to include two new projects, Little Rock and West Fork(additional subsidization). Arkansas received 2012 cap grant in May which totaled \$9,239,000.

The RLF entered into five binding commitments for a total amount of $\$ 68,200,000$. Section 212 and 319 cumulative binding commitments now total over $\$ 611$ million (Chart 8). Four Section 212 loans were closed for $\$ 67.7$ million and had 20 year repayment periods. One Section 319 loan was closed for $\$ 500,000$. Arkansas uses the all project method.

Bryant is under a Consent Administrative Order. This project will address sewer system overflows, modifications to the equalization basin, new influent pumps, replace aeration system, and rehab and replace line work.

Little Rock's project will repair or replace portions of the existing sewer collection system to reduce inflow or infiltration of groundwater into the system.

Midland's project will be replacing failing septic tanks \& field lines with a new collection system which will be pumped to an adjacent community with a treatment plant. The RLF funds will not be used for such items as land purchases.

North Little Rock's project will include replacing the existing pump station to provide larger capacity, and a deeper wet well to reduce surcharges to the collection system. The project will also add an auxiliary generator to provide stand by power.

Larkin Creek is a Section 319 project. This project will reduce sediment, promote better BMP's for cropland, and restore stream.

Arkansas disbursed $\$ 61,341,155$ from the RLF for construction of Section 212 projects. Federal funds of $\$ 15,335,250$ million were disbursed. State match over $\$ 4,180,650$ million was disbursed. RLF funds over $\$ 41,824,005$ million were disbursed. Administrative expenses over $\$ 1$ million were paid from the Fees and Administrative account which is outside the Fund. At the end of SFY 2013, ANRC has $\$ 91.4$ million left to disburse on existing loans. The loan balances will be disbursed from all available fund sources such as federal grants, state match, and repayments.

Along with federal grant and state match monies, sources of funds (Chart 12 Part 3) include revenues from interest earned on loans and investments over $\$ 51$ million. Principal repayments on loans totaled over $\$ 29$ million.

The one percent ( $1 \%$ ) financing fee on outstanding principal loan balances produced over $\$ 2$ million for the year, as reported in Chart 12 Part 1, Statement of Combined Cash Flows. These funds are held outside the Fund in the Fees and Administrative Account. At fiscal year end, funds totaling over $\$ 6$ million were held in the account and were available for program expenses and other eligible RLF purposes.

Financial indicators are expressed in Chart 13. Those indicators include a Federal Return on Investment of 2.31 compared with 2.09 in FY 2012; Executed Loans as a \% of Funds Available of $104.63 \%$ compared with $97.85 \%$ FY 2012. Data for these indicators were taken from the National Information Management System (NIMS) report.

ANRC had no Special Appropriation (SAAP) grants matched with CWSRF loans.

## III. GOALS AND ACCOMPLISHMENTS

A. Short-term goals and accomplishments:

1. Communicate the availability of the CWRLF Program and nonpoint source water pollution loans by Division personnel at conferences or conventions during the year. We anticipate presenting program information at three (3) to five (5) conferences or conventions during the year. Also, we expect to mail approximately five (5) to ten (10) letters per month to various entities.

To promote the capabilities of the RLF, literature describing the RLF generally and the nonpoint source program specifically was distributed at waterwastewater conventions and conservation district conventions. Hot Springs held a water/wastewater conference which was available to operators, mayors, city council, and engineers from across the state. Division personnel also continue to staff booths at the Arkansas Water Works \& Water Environment Association

Conference and Arkansas Municipal League Convention, and make presentations at the Arkansas Rural Water Association meeting to explain the options available in the RLF. Again this year, ten informational meetings relating to the Arkansas Agriculture Water Quality Loan Program (AAWQLP) were held with various groups during the fiscal year. The Agriculture Water Quality Loan Program is now a revolving loan program. Securities are pledged as collateral for accounts with deposit amounts exceeding FDIC insurance coverage. ANRC mailed out ten letters monthly to cities, communities and banks.
2. The Division anticipates entering into binding commitments with six (6) Section 212 projects and one (1) Section 319 project for a total of $\$ 65.2$ million. Out of these seven binding commitments the Division anticipates closing two loans.

ANRC entered into four Section 212 loans totaling $\$ 67.7$ million and one section 319 loan for $\$ 500,000$ for SFY13. Entities listed ahead of the binding commitments and loan closings in this report were ineligible because of an inability to repay, or were using a different loan source, or were not ready to proceed.
B. Long-term Goals and Accomplishments:

In its Intended Use Plans, Arkansas made the following long-term commitments:

1. Achieve statewide compliance with Federal and State water quality standards by providing both traditional, low interest rate loans and innovative assistance to make affordable wastewater treatment projects and other eligible environmental improvements available to Arkansas communities and other qualified recipients
2. Progress toward achievement of our long-term water quality compliance goal by achieving initiation of operation on projects in a timely manner.
3. Maintain the purchasing power of the CWRLF into perpetuity through sound and effective administration and fiscal management.

Arkansas has addressed these goals as follows:

1. Through ANRC's affiliation with the Water/Wastewater Advisory Committee (WWAC), the Division and the Arkansas Department of Environmental Quality (ADEQ) continue to work together to address Clean Water Act compliance issues. The WWAC is a body composed of representatives from four State Agencies and United States Department Agriculture-Rural Development, and was established by the Governor of the State to coordinate state and federal funding, provide technical feasibility and regulatory reviews. WWAC members
work together in coordinating funding and extending water quality standards and compliance. It also provides a forum to communicate the availability of RLF funding to cities and communities.

The Lending Rate is composed of two parts: the interest rate and the servicing fee. The initial objective for ANRC is to establish a Lending Rate for CWRLF loans at $80 \%$ of the current bond market's taxable or tax-exempt rate depending on whether the project qualifies for a taxable or tax-exempt rate.

The Lending Rate will be determined at the time the Borrower is developing the Bond Purchase Agreement and the Bond Ordinance. The Lending Rate is determined using a formula that starts with a published list of daily market interest rates for a series of maturity dates for General Obligation Bonds. Those rates are modified to take into account the fact that the CWRLF is a Revenue Bond program and then the series is converted to an average weighted value. That single rate is then multiplied by $80 \%$ to get the Lending Rate. The servicing fee is currently set at $1.0 \%$, and interest rate is the difference between the Lending Rate and the servicing fee. The servicing fee is the same for all projects, so the interest rate changes as the lending rate changes. Arkansas varies the lending rate in this manner to encourage repayment of the loans as quickly as possible in order for the CWRLF program to fund other projects. The $1 \%$ service fee is placed into an account which is outside the CWRLF fund.

On April 2013, the Lending Rate was $2.4 \%$ for a 20 year repayment period.
Arkansas closed five loans in State Fiscal Year 2013 totaling $\$ 68.2$ million.
The Division continues to work with financially distressed communities to determine their best repayment option: user rates, sales tax, or a combination. When appropriate, we recommend that communities apply to other state or federal agencies that provide grants or alternative repayment terms.
2. Document submittals are reviewed by Project Administrators and Project Engineers on a monthly basis for each loan when a payment request is received which may include items such as budget and construction items being in scope of project. Project Engineers typically conduct monthly on-site inspections but only on active construction projects.
3. Perpetuity of the Revolving Loan Fund through successful management is indicated in part by financial indicators reported above. Arkansas had five loan delinquencies in the amount of $\$ 426,680$. The entities are listed in Chart 14. Appendix C includes the perpetuity from Arkansas' financial advisors.

## IV. DETAILS OF ACCOMPLISHMENTS

## A. Fund Financial Status

1. Binding Commitments

Arkansas considers an executed bond purchase agreement to be a binding commitment. Four (4) Section 212 and one Section 319 binding commitments increased cumulative Section 212 binding agreements by $\$ 68.2$ million and brought cumulative binding commitments to over $\$ 611$ million. Section 319 binding commitments are over $\$ 8.8$ million. The total for Section 212 and 319 binding commitments are over $\$ 611$ million.
2. Projects Bypassed

Entities listed ahead of the projects funded in SFY 2013 were ineligible because of the inability to repay, using a different loan source, or were not ready to proceed. ANRC has sufficient funds available so that there is no pressure to favor any applicant or project over another.
3. Sources of Funds

The sources of funds (Chart 12 Part 3) for SFY 2013 totaled over $\$ 51$ million. ANRC had funds from the 2010, 2011, and 2012 federal cap grant available through the EPA federal payment systems for SFY 2013. State match of $\$ 3,697,800$ (Chart 3) was deposited on or before the date on which the State received each payment from the grant award. The state match in the amount of $\$ 1,850,000$ deposited and disbursed in April 2013 was allocated to the 2013 federal cap grant. This deposit and disbursement exceeds the match required on our 2013 grant by $\$ 105,600(\$ 8,722,000 \times 20 \%=\$ 1,744,400)$. This remaining balance of $\$ 105,600$ will be applied to future grant allotments.

## 4. Revenues and Expenses

Revolving loan fund revenues consisted of interest earned on loans and investment interest for a total of $\$ 5,168,960$ and principal repayments on loans of $\$ 29,837,953$ (Chart 12 Part 3). Funds held outside the RLF (Fees and Administrative account) were used to cover program administration costs of approximately $\$ 1,048,622$ (Chart 5). ANRC expensed $\$ 754,995$ grant funds for administrative expenses. This information is found in Chart 13 Part 1 Statement of Cash Flows.

## 5. Disbursements and Guarantees

During the fiscal year, a total of $\$ 61,341,155$ was disbursed as financial aid to Section 212 recipients. This information is contained in Chart 12 Part 1 Statement of Cash Flows.
6. RLF Audit - State Fiscal Year 2013

An audit of the RLF for fiscal year 2013 is in process by BKD, Certified Public Accountants. A copy of the finalized audit report will be provided to EPA when received.
B. Assistance activity as illustrated by Charts.

Chart 1 show loans closed during state fiscal year 2013. Also, shown is all Section 212 Publicly Owned Treatment Works receiving assistance and Section 319 Nonpoint Source Management Program transactions. Arkansas had no Section 320 National Estuary projects.

Chart 2 and Chart 2 Part 2 show a breakdown of Section 212 and Section 319 binding commitments made in FY 2013 along with cumulative totals.

Chart 3 shows the state match for SFY 2013.
Chart 4 provides an alphabetical listing of all binding commitments and identifies binding commitment date, loan terms etc.

Chart 5 summarizes SFY 2013 disbursement amounts as to Federal, State, and bond proceeds for both projects and administrative expense. Part 1 of Chart 5 includes a detailed listing by project for all expenditures and the source of funds for the expenditures. Part 2 of Chart 5 shows the green project reserve expenditures.

Chart 6 shows the assistance amount by NIMS needs category.
Chart 7 indicates federal allotment amounts available for fiscal years 2011 through 2013.

Chart 8 shows the outstanding loan balance and loan rate for each project as of June 30 , 2013. Total outstanding loans are over $\$ 252$ million.

Chart 9, reflects summary of funds received and expended for administrative purposes.

Chart 10 - As of September 2013, the combining Balance Sheet includes the Fees \& Expense account and is based on the unaudited financial statements as reported by

ADFA. No significant changes are expected when the final audit reports are issued by BKD, Certified Public Accountants.

Chart 11 - Combining Statement of Revenue, Expenses and Changes in Fund Balances shows operating income of $\$ 2,164,871$ which does not includes Fees \& Expense account information.

Chart 12: Parts 1, 2, and 3 - The statements of Cash Flows and Reconciliation of Net Income to Net Cash are also based on unaudited information provided by ADFA. The net cash provided (used) by the RLF operating activities was (\$28,453,735). Part 3 is the Sources and Uses of Funds Statement for the RLF only.

Chart 13 provides EPA designated financial indicators for the RLF. The information for this report was taken from the National Information Management System (NIMS) and unaudited financial data provided by ADFA.

Chart 14 reports six delinquent loan repayments to the RLF as of June 30, 2013. The total delinquent amount is 426,680 . We are working with the mayor of each city with the expectation of the payments to become current.

## C. Provisions of the Operating Agreement/Conditions of the Grant.

The State of Arkansas agreed to comply with the following conditions in the Operating Agreement.

1. Instrumentality of the State: The State of Arkansas established a revolving loan fund under State Legislation enacted by the Arkansas General Assembly. A copy of the legislation is attached to the Operating Agreement.
2. Payment schedule: A proposed payment schedule is enclosed with each RLF grant application. Cumulative draws will not exceed the assistance amount of the grant.

State Matching Fund: State match will be deposited on or before the date on which the State receives each payment from the grant award. State match deposits and disbursements for SFY'13 are found in Chart 3. State match of $\$ 3,697,800$ (Chart 3) was deposited on or before the date on which the State received each payment from the grant award. The state match in the amount of \$1,850,000 deposited and disbursed in April 2013 was allocated to the 2013 federal cap grant. This deposit and disbursement exceeds the match required on our 2013 grant by $\$ 105,600(\$ 8,722,000 \times 20 \%=\$ 1,744,400)$. This remaining balance of $\$ 105,600$ will be applied to future grant allotments.
3. Commitment of $120 \%$ in one year: Since Arkansas receives quarterly allotments on the federal cap grant, the required cumulative binding commitment total, through FY June 30, 2013, was $\$ 268,232,466$. Through that period the Fund completed binding commitments totaling $\$ 614,499,529$ for approximately $229 \%$ of the required amount as shown in Chart 2 Part 2.
4. Timely expenditure: All funds were expended as quickly and efficiently as possible to facilitate the financing of eligible activities and, where applicable, to initiate construction with a minimum of delay.
5. Enforceable requirements of the Act: All the projects listed on the NMP List have been:
(a) previously funded, or
(b) in compliance, or
(c) on an enforcement schedule, or
(d) have an enforcement action filed.
6. Title VI requirements: Revolving Loan Fund administrative procedures were revised to require specific certifications necessary to meet Title VI requirements. Certifications are part of our project files and are available for review.
7. State Laws and procedures: We have complied with the necessary State laws and procedures as set forth in ANRC Title XVI.
8. State Accounting and Audit procedures: As required by Section 606(a), the State of Arkansas has established fiscal controls and accounting procedures sufficient to assure sound accounting practices and to produce financial statements that are presented fairly in all material respects in accordance with generally accepted accounting principles. The RLF accounting period is the same as the State Fiscal Year, July 1 to June 30.
9. Revolving Loan Fund Recipient Accounting and Audit procedures: As required by Section 602(b)(9), the State of Arkansas agrees that it will require RLF assistance recipients to maintain project accounts in accordance with "generally accepted government accounting principles." This requirement is being implemented through a condition in the bond purchase agreements.
10. Annual Report: Compliance with this condition is met by submitting this report prior to September 30, 2013.
11. Environmental Review: Environmental reviews were performed for both projects that were closed in SFY13 in accordance with the approved environmental review procedures. Reviews are performed on all projects prior to the start of construction.
12. Intended Use Plan (IUP): The Intended Use Plan for SFY 2013 was submitted to the EPA in June 2012. In February 2012 Arkansas revised and resubmitted the Intended Use Plan to EPA.
13. Repayment to Fund: Per the Statement of Cash Flows (Chart 13 Part 1) loan repayments deposited to the Fund during the fiscal year totaled $\$ 34,807,080$, of which $\$ 29,837,953$ was principal and $\$ 4,969,127$ was interest. There were six entities that were delinquent in the amount of $\$ 426,680$ as of June 30, 2013. We are working with the mayor of each city with the expectation that payments will be current.
14. Consistency with Planning: All 212 projects were in compliance with the water quality management plan of the state. (208 Plan)
15. Other Federal Activities: The RLF complied with all applicable Federal authorities, including those referenced in 40 CFR, Part 35, Subpart K.
16. DBE: The State applied the six affirmative steps described in 40 CFR, Part 31, in an effort to achieve the negotiated fair share objective. The fair share objective for SFY 2013 was:

Table 2

|  | MBE | WBE |
| :--- | :--- | :--- |
| Construction | $2.97 \%$ | $2.59 \%$ |
| Services | $1.74 \%$ | $6.21 \%$ |
| Supplies | $1.63 \%$ | $3.88 \%$ |
| Equipment | $3.15 \%$ | $5.57 \%$ |

A breakdown by quarter is as follows:

|  |  | DBE, MBE |  |
| :--- | :---: | :---: | :---: |
| QTR | AMOUNT | WBE |  |
| 1st Quarter | $4,656,906$ | 0 | $\%$ |
| $2^{\text {nd }}$ Quarter | $8,255,969$ | 0 |  |
| 3rd Quarter | $2,196,309$ | 0 |  |
| $4^{\text {th }}$ Quarter | 611,501 | 126,722 | 20.72 |
| TOTALS | $15,720,685$ | 126,722 | 0.008 |

Documentation to support the six affirmative steps is closely reviewed by the Division DBE Coordinator. All construction project bid packages as well as procurement of professional services, supplies and equipment purchases are
closely monitored to determine if the affirmative steps were followed. These documents are maintained in each project file.

The State of Arkansas has met all grant conditions of its capitalization grant.
V. PROGRAM CHANGES - Comparison with the Intended Use Plan

There are no program changes to report.

## VI. PROGRAM IMPROVEMENTS

ANRC intends to leverage the federal capitalization grant and state match funds as loan demand dictates.

## VII. HARDSHIP GRANT

ANRC's only hardship grant allocation of $\$ 1,032,300$ was fully expended during fiscal year 2002 and details were reported in the SFY 2002 Annual Report.

## VIII. CLEAN WATER ENVIRONMENTAL BENEFITS REPORT

ANRC has included the Clean Water Environmental Benefits Reports for all loans closed in state fiscal year 2013.
IX. ARRA

Arkansas received the ARRA capitalization grant in the amount of \$25,636,500. Arkansas has expensed a total of $\$ 25,636,500$ in ARRA funds. Arkansas has disbursed the entire ARRA cap grant. Included are two charts (Appendix B) which show all our ARRA loans and the disbursements made in this state fiscal year.

## X. ARKANSAS AGRICULTURE WATER QUALITY LOAN PROGRAM

Arkansas Agriculture Water Quality Loan Program (AWQLP) now revolves like the SRF program. Arkansas loaned over $\$ 1.7$ million which was used for best management practices for agricultural croplands and animals. This year Arkansas made a total of 24 loans.

| Loans as of 06/30/2012 | $\$ 55,884,738$ |
| :--- | ---: |
| New Loans as of 06/30/2013 | $1,771,656$ |
| Grand Total | $\$ 57,656,394$ |

CLEAN WATER REVOLVING LOAN FUND
CHART 6: SEC. 212 LOAN AMOUNTS BY NEEDS CATEGORIES FY 2013

NIMS NEEDS CATEGORIES: Category I - Secondary treatment and best practicable wastewater treatment technology.
Category II - Advanced treatment.
Category IIIA - Infiltration/inflow correction.
Category IIIB - Replacement and/or major rehabilitation of existing sewer systems.
Category IVA - New collector sewer systems and appurtenances.
Category IVB - New interceptor sewer systems and appurtenances.

NOTES: This chart was devised in SFY 1999 and at that time, because of bank mergers and accounting system changes at ADFA, documentation of transaction details was not available to cover the years prior to SFY1992.

Prior to SFY 2002, the account activity and balances outside the RLF were taken from the bank statements.
For SFY 2002 and later, numbers are based on audited financial reports but do not take into account adjusting to fair market value.
