Wes Ward
Secretary of Agriculture

PESTICIDE SECTION

TESTING

To Whom It May Concern:

The Arkansas Department of Agriculture will continue to provide test to pesticide applicators in order to keep applicators in compliance and operational. Testing will be at the Little Rock office and will be limited to 10 people on a given test date. Anyone planning on testing **MUST** sign up ahead of time. If you have not pre-registered and the room is at capacity, you **WILL** be turned away.

If you feel sick or have underlying health conditions, please stay at home. This policy is subject to change daily due to the evolving corona virus situation.

Anyone signed up for testing will need to call the Pesticide Section the day of testing to ensure testing has not been cancelled.

The link to the testing preregistration form can be found below. If you have any questions, feel free to contact the office at 501-225-1598 and ask for the Pesticide Section.
