State Plant Board to Enforce Arkansas Dicamba Regulations

LITTLE ROCK, AR – Following clarity provided by the Arkansas Attorney General, the Agriculture Department’s State Plant Board will enforce Arkansas dicamba-related regulations, which are part of the Arkansas Pesticide Use and Application Regulations available [here](#). The use of dicamba products is prohibited in Arkansas through October 31. Due to a Temporary Order issued in the matter of Bell et al. v. Plant Board (Clay County Circuit Court), those who are individually named plaintiffs in that litigation are allowed to use dicamba until the Supreme Court rules otherwise. Regulations include exemptions for the use of dicamba in pastures, rangeland, turf, ornamental, direct injection for forestry, and home use.

The Arkansas Agriculture Department is dedicated to the development and implementation of policies and programs for Arkansas agriculture and forestry to keep its farmers and ranchers competitive in national and international markets while ensuring safe food, fiber, and forest products for the citizens of the state and nation.
