List of Tests and Fees

You can enter the Test Name or the Test Code (if available) on the Submission Form.

Section	Test Name	Applicable Species	Test Code	Sample Details	Fee Per Test Unless Noted	Turn Around Time **	Notes
CHEM	Aflatoxin (quantification)		afpsc	Feed sample (100 g)	\$60	7-10 days	
VIR	African Swine Fever Virus PCR	swine	asfvp	Whole blood, tonsil, spleen, lymph node, spleen swab, blood swab	\$30	1-3 days	
VIR	Anaplasma and Ehrlichia spp PCR	mammals	eapcr	EDTA whole blood, spleen	\$27	1-3 days	Does not detect A. ovis or A. bovis
SER	Anaplasma ELISA	mammals	anael	Serum (1 mL)	\$6/sample up to 10 samples; \$3/sample for each addl sample	Reported on Monday	Performed on Mondays only. Samples must be received by EOB on Friday for results to be reported on Monday.
SER	Avian Encephalomyelitis ELISA	avian	aeel	Serum (1 mL)	\$1.22	1-2 days	
VIR	Avian Influenza (AI) PCR	avian	aipcr	Oropharyngeal swabs (gallinaceous poultry), cloacal swabs (waterfowl, wild birds)	\$30	1-3 days	Notify lab in advance if submitting a large number of samples. Swabs must be submitted in BHI broth. Up to 5 swabs may be pooled in 3.0 mL BHI. Up to 11 swabs may be pooled in 5.5 mL BHI. Please note number of swabs per pool on the broth tube.
VIR	Avian Polyomavirus PCR	avian	appcr	Liver, heart, spleen	\$25	1-3 days	
BACT	Bacterial aerobic culture (no sensitivities)		aer	Swab, feces, tissue, urine, or other body fluids	\$23	2-3 days	Submit in aerobic culturette or sterile container.

Section	Test Name	Applicable Species	Test Code	Sample Details	Fee Per Test Unless Noted	Turn Around Time **	Notes
BACT	Bacterial aerobic culture and antibiotic sensitivities (non-poultry).		aerCS	Performed on in-house cultured aerobic bacterial isolates	\$23 plus \$13.50/isolate	3-5 days	
BACT	Bacterial aerobic culture and antibiotic sensitivities (poultry)		aerCS	Performed on in-house cultured aerobic bacterial isolates	\$23 plus \$10/isolate	3-5 days	
BACT	Bacterial anaerobic culture		anae	Tissue or body fluid	\$35	3-5 days	
CLIN	Bile Acids. Baseline and post-prandial samples.	canine, feline, equine	bapro	Serum. Centrifuge before sending.	\$26 for pre and post samples from the same animal		Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results. Canine, feline: 12 hour fasted sample for baseline, post-prandial sample collected 2 hours after eating. Equine: Single, non-fasted sample.
CLIN	Bile Acids. Baseline sample.	canine, feline, equine	bilac	Serum. Centrifuge before sending.	\$13.50 for one sample	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results. Canine, feline: 12 hour fasted sample for baseline, post-prandial sample collected 2 hours after eating. Equine: Single, non-fasted sample.
CLIN	Bile Acids. Post-prandial sample.	canine, feline, equine	bapo	Serum. Centrifuge before sending.	\$13.50 for one sample		Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results. Canine, feline: 12 hour fasted sample for baseline, post-prandial sample collected 2 hours after eating. Equine: Single, non-fasted sample.

Section	Test Name	Applicable Species	Test Code	Sample Details	Fee Per Test Unless Noted	Turn Around Time **	Notes
CLIN	Blood Chemistry Avian/Reptile Profile. Includes Na, K, Cl, Ca, P, uric acid, glucose, BUN, Cr, cholesterol, amylase, TP, albumin, globulin, A/G ratio, total bilirubin, ALT, AST, GGT, ALP, CPK, osmolality.	avians, reptiles	avrep	Serum. Centrifuge before sending.	\$25.50	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Chem-13 Large Animal. Includes Ca, Mg, CO2, glucose, BUN, Cr, BUN/Cr ratio, TP, albumin, globulin, A/G ratio, total bilirubin, AST, GGT, CPK.	bovine, caprine, ovine, swine, camelids, equids, wild ruminants	chla	Serum. Centrifuge before sending.	\$15.50	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Chem-13 Small Animal. Includes Na, K, Cl, glucose, BUN, Cr, BUN/Cr ratio, CO2, anion gap, TP, albumin, globulin, A/G ratio, total bilirubin, ALT, GGT, osmolality.	canine, feline, small mammals	ch13	Serum. Centrifuge before sending.	\$16	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Complete Large Animal. Includes Na, K, Cl, Ca, P, Mg, CO2, anion gap, glucose, BUN, Cr, BUN/Cr ratio, TP, albumin, globulin, A/G ratio, total bilirubin, ALT, AST, GGT, ALP, CPK, osmolality.	bovine, caprine, ovine, swine, camelids, equids, wild ruminants	lacch	Serum. Centrifuge before sending.	\$25.50	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Complete Small Animal. Includes Na, K, Cl, Ca, P, glucose, BUN, Cr, BUN/Cr ratio, CO2, anion gap, cholesterol, triglycerides, amylase, TP, albumin, globulin, A/G ratio, total bilirubin, ALT, AST, GGT, ALP, CPK, osmolality.	canine, feline, small mammals	cgp	Serum. Centrifuge before sending.	\$26.50	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.

Section	Test Name	Applicable Species	Test Code	Sample Details	Fee Per Test Unless Noted	Turn Around Time **	Notes
CLIN	Blood Chemistry Electrolyte Profile. Includes Na, K, Cl, CO2, anion gap.		abep	Serum. Centrifuge before sending.	\$10.50	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Liver Profile. Includes Total Bilirubin, AST, ALT, ALP, GGT. If Total Bilirubin is elevated, profile includes Indirect/Direct Bilirubin.		liver	Serum. Centrifuge before sending.	\$14	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Mineral Profile. Includes Ca, P, Mg.		minpr	Serum. Centrifuge before sending.	\$11	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry Renal Profile. Includes BUN, Cr, BUN/Cr ratio, P.		renal	Serum. Centrifuge before sending.	\$13	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CLIN	Blood Chemistry. Any blood test may be ordered individually. Please identify the specific electrolyte, protein, or other component.			Serum. Centrifuge before sending.	\$6	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
CHEM	Blood Lead		lead	EDTA whole blood (1 mL)	\$20	3-7 days	
CLIN	Blood Parasites Canine ELISA Profile. IDEXX 4DX SNAP Plus. Includes B. burgdorferi (Lyme), E. canis, E. ewingii, A. phagocytophilum, A. platys, and D. immitis (heartworm).	canine	snap4	EDTA or heparinized whole blood, serum	\$23	Same day	Samples must be received by noon for same-day reporting. Lyme vaccination does not interfere with test results. Heartworm test is for antigen, other tests are for antibodies.

Section	Test Name	Applicable Species	Test Code	Sample Details	Fee Per Test Unless Noted	Turn Around Time **	Notes
CLIN	Blood Parasites Ehrlichia canis IFA--screening test		ehrif	Serum	\$15	Reported on Tuesday and Friday	Tests performed only on Tuesdays and Fridays. Samples must be received by 9am for same-day reporting.
CLIN	Blood Parasites Ehrlichia canis IFA--titer		ecati	Serum	\$28	Reported on Tuesday and Friday	Tests performed only on Tuesdays and Fridays. Samples must be received by 9am for same-day reporting.
CLIN	Blood Parasites Profile. Direct examination for Ehrlichia, Babesia, Hemobartonella, Cytauxzoon, Anaplasma, etc., as appropriate for species of animal.		blpar	EDTA blood and unstained, air-dried smear slides	\$7.50	Same day	Samples must be received by noon for same-day reporting.
CLIN	Blood Parasites Rocky Mountain Spotted Fever (RMSF) IFA--screening test		rmsf	Serum	\$15	Reported on Tuesday and Friday	Tests performed only on Tuesdays and Fridays. Samples must be received by 9am for same-day reporting.
CLIN	Blood Parasites Rocky Mountain Spotted Fever (RMSF) IFA--titer		rmsft	Serum	\$28	Reported on Tuesday and Friday	Tests performed only on Tuesdays and Fridays. Samples must be received by 9am for same-day reporting.
CLIN	Blood Parasites Tick Profile Screen. Direct examination for microfilaria, and IFA screen for E. canis and RMSF.		tick	Serum and EDTA blood	\$36	Reported on Tuesday and Friday	Tests performed only on Tuesdays and Fridays. Samples must be received by 9am for same-day reporting.
CLIN	Blood Phenobarbital		pheno	Separated serum (1 mL)	\$20	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.

CLIN	Blood Potassium Bromide (KBr)		bromi	Separated serum (1 mL)	\$25	Reported on Tuesday and Friday	Tests performed only on Tuesdays and Fridays. Samples must be received by noon for same-day reporting.
CLIN	Blood Reticulocyte Count. Includes percent and absolute count if done with CBC.		retic	EDTA whole blood and air-dried smear slide	\$10	Same day	Samples must be received by noon for same-day reporting. Underfilled tubes may yield inaccurate results.
VIR	Bluetongue Virus PCR	domestic and wild ruminants	btpcr	EDTA whole blood, infected tissue	\$30	1-3 days	
LAB	Bovine Abortion Panel. Includes IBR VN, BVD VN (Type 1 and Type 2), Leptospira MAT, Brucellosis plate agglutination, Neospora ELISA.	bovine	bap	Paired serum samples (1 mL)	\$37	1-2 weeks	Paired serum samples will give the best results. Federal Brucellosis chart is required for Brucellosis test. Tests performed on different days.
VIR	Bovine Coronavirus PCR	bovine	bcvp	Feces (2 g or 2 mL), intestine, lung, nasal swab, infected tissue	\$30	1-3 days	
SER	Bovine Leukemia Virus (BLV) ELISA	bovine	blvE	Serum (1 mL)	\$8	Reported on Monday	Performed on Mondays only. Samples must be received by EOB on Friday for results to be reported on Monday.

SER	Bovine PAG (Pregnancy-Associated Glycoprotein) ELISA	bovine	bpe	Serum (1 mL)	\$20 flat fee for samples 1 thru 4; \$20 + \$5/sample for samples 5 thru 10; \$50 + \$3/sample for samples 11 plus	Reported on Monday	Performed on Mondays only. Samples must be received by EOB on Friday for results to be reported on Monday. Test can be performed as early as 28 days post breeding or more than 60 days post calving.
VIR	Bovine Respiratory Syncytial Virus FA	bovine	brsvf	Lung, trachea, tracheal swab, nasal swab	\$15	1-3 days	
VIR	Bovine Rotavirus PCR	bovine	brvp	Feces (2 g or 2 mL), intestine	\$25	1-3 days	
VIR	Bovine Viral Diarrhea (BVD) PI SNAP	bovine	bvdsp	Ear notch (fresh tissue only), serum	\$5.50	1-2 days	Do not send tissues in fixative or preservative. Notify lab if submitting more than 20 samples.
VIR	Bovine Viral Diarrhea (BVD) Types 1 and 2 PCR	bovine	bvdpc	EDTA whole blood (5 mL), nasal swab, suspect tissues	\$30	1-3 days	
VIR	Bovine Viral Diarrhea VN (Types 1 and 2)	bovine	bvdsn	serum, paired samples	\$14	1-2 weeks	Performed on Fridays only. Samples must be submitted by EOB on Thursday for test to be performed the same week.
CLIN	Brucella canis Antibody Chromatographic Immunoassay (screening test)		bcc	Serum (1 mL)	\$16	2-4 days

SER	Brucellosis BAPA (plate agglutination) (B. abortus and B. suis)	bovine, caprine, ovine, equine, swine		Serum (1 mL)	\$2; additional fees for equine and ovine samples (NVSL fee \$18 plus \$10 shipping)	1-7 days. See Notes. For samples sent to NVSL, TAT increases subject to their schedule.	<p>Federal Brucellosis Chart is required for bovine, caprine, ovine, and equine samples. Federal Brucellosis Chart or Porcine Serology Chart is required for porcine samples. Federal ID numbers are required for all samples. Samples will not be processed until the relevant chart is received.</p> <p>BAPA test is performed Monday through Friday if it is the only test requested.</p> <p>Samples must be received by noon for same-day reporting.</p> <p>If plate agglutination is positive, a Brucellosis Card test will be performed. If the card test is also positive, samples will be sent to NVSL for confirmation.</p> <p>Bovine, caprine: samples are tested in-house. Negative results can be reported.</p> <p>Porcine: Samples tested in house. Negative results can be reported. If pseudorabies is also requested, both tests will be run on Monday.</p> <p>Samples MUST be received by EOB on the preceding Friday, or they will be held until the next week.</p> <p>Equine: samples are tested in-house. All samples will also be sent to NVSL for confirmation regardless of results. Additional fees will apply.</p> <p>Ovine: all samples will be sent to NVSL for testing. Additional fees will apply.</p>

** Turnaround times in the Test and Fee schedule are estimated for routine samples and tests and are subject to change. Some turnaround times apply to submissions arriving prior to listed cutoff times.

Actual turnaround times may vary depending on:

- sample quality
- incomplete submission form
- improper sample labeling
- improper sample packaging (broken, leaking, or expired containers)
- confirmatory testing performed at reference laboratory
- additional testing methods
- slow-growing cultures or densely mixed cultures
- culture enrichment procedures
